

Women's Health Initiative (WHI) dbGaP Acknowledgement Statements

Version August 5, 2011

The acknowledgement of the WHI dataset(s) should always include acknowledgement of the WHI contract (component 1 below) AND an acknowledgement for the particular genotypic dataset(s) (component 2 below) AND a statement where the dataset was obtained from (component 3 below).

Components of the WHI dbGaP Acknowledgement Statements:

1. **Women's Health Initiative (WHI) Contract Acknowledgements** (Use one of the following two statements for ALL analyses resulting from WHI dbGaP).

If WHI investigators did not collaborate on a specific analysis the statement is as follows:

"The WHI program is funded by the National Heart, Lung, and Blood Institute, National Institutes of Health, U.S. Department of Health and Human Services through contracts N01WH22110, 24152, 32100-2, 32105-6, 32108-9, 32111-13, 32115, 32118-32119, 32122, 42107-26, 42129-32, and 44221. This manuscript was not prepared in collaboration with investigators of the WHI, has not been reviewed and/or approved by the Women's Health Initiative (WHI), and does not necessarily reflect the opinions of the WHI investigators or the NHLBI.

If WHI investigators collaborated on a specific analysis the statement is as follows:

"The WHI program is funded by the National Heart, Lung, and Blood Institute, National Institutes of Health, U.S. Department of Health and Human Services through contracts N01WH22110, 24152, 32100-2, 32105-6, 32108-9, 32111-13, 32115, 32118-32119, 32122, 42107-26, 42129-32, and 44221. This manuscript was prepared in collaboration with investigators of the WHI, and has been reviewed and/or approved by the Women's Health Initiative (WHI). WHI investigators are listed at http://www.whiscience.org/publications/WHI_investigators_shortlist.pdf."

2. **Genotypic/Genomic Dataset Acknowledgments** (Use one or more of the following statements relevant to the specific datasets used in your analysis)
 - a. **PAGE:** WHI PAGE is funded through the NHGRI Population Architecture Using Genomics and Epidemiology (PAGE) network (Grant Number U01 HG004790). Assistance with phenotype harmonization, SNP selection, data cleaning, meta-analyses, data management and dissemination, and general study coordination, was provided by the PAGE Coordinating Center (U01HG004801-01).
 - b. **GARNET:** Funding support for WHI GARNET was provided through the NHGRI Genomics and Randomized Trials Network (GARNET) (Grant Number U01 HG005152). Assistance with phenotype harmonization and genotype cleaning, as well as with general study coordination, was provided by the GARNET Coordinating Center (U01 HG005157). Assistance with data cleaning was provided by the National Center for Biotechnology Information. Funding support for genotyping, which was performed at the Broad Institute of MIT and Harvard, was provided by the NIH Genes, Environment and Health Initiative [GEI] (U01 HG004424).
 - c. **WHISP:** The Women's Health Initiative Sequencing Project (WHISP) is funded by Grant Number RC2 HL102924. This study is part of the NHLBI Grand Opportunity Exome Sequencing Project (GO-ESP). Funding for GO-ESP was provided by NHLBI grants RC2 HL103010 (HeartGO), RC2 HL102923 (LungGO) and RC2 HL102924 (WHISP). The exome sequencing was performed through NHLBI grants RC2 HL102925 (BroadGO) and RC2 HL102926 (SeattleGO).
3. **dbGaP dataset reference** The datasets used for the analyses described in this manuscript were obtained from dbGaP at <http://www.ncbi.nlm.nih.gov/sites/entrez?db=gap> through dbGaP accession [fill in relevant number].
